THE ART OF POSSIBILITY

Student Art Showcase & Auction

Presented by
Goldman Sachs

Art gives students a way to share how they see the world, explore ideas, and tell stories that are uniquely their own. That is why Barberton Community Foundation created The Art of Possibility, a collection featuring work by Barberton student artists selected from the 2026 B-Art Show at White Rabbit Galleries.

The artwork was curated and purchased by Barberton Community Foundation, then professionally framed by White Rabbit Galleries for display at this year's Annual Dinner. Tonight, the collection will be auctioned to support local arts initiatives and scholarships for Barberton student artists.
